

Talent Explorer

Help young people select study options or a professional activity

This programme is **for young people in their last year of compulsory school** who have not yet managed **to determine their study of career preferences**. We can guide them to help them choose professions that **fit their personality**.

Identify to Build

Talent Explorer is a **new method of evaluating the behavioural skills** that identify strengths and predispositions.

The result provides **a clear view of talents and personality**.

Through its original concept and its pertinent results, the Talent Explorer method offers **an analysis support for guidance** in career planning.

Identify the talents of young people to link them to over 800 professions.

Why Make an Evaluation of Talents?

- **Identify the talents, natural behaviours, and predispositions.**
- **Develop self-confidence.**
- **Improve the perception of personal skills** to better guide the choice of study or training.
- **Facilitate the potential for development** by integrating the natural strengths.
- **Promote the success of a professional project** with the personal guidance of a Talent Explorer Analyst.

Our Assets
